

SAP Concur Home Page Release Update ^[1]

October 8, 2024 by [Staff](#) ^[2]

SAP Concur has finally announced the release date for the change to the default home page setting for all Concur users. Beginning on October 23, 2024, all profiles will be transitioned to the new Concur home page by default, with the option to toggle back to the legacy home page showing in the top pane of the page. The toggle ability will remain available into January 2025, at which time SAP Concur will permanently remove the legacy view. The transition scheduled for October 23rd will take a few days to complete on all of user profiles, so some users may not see the change immediately that day.

As a reminder of the information shared in our [September 13, 2024 blog post](#) ^[3], this update will not change any features or functionality of the SAP Concur platform. It is an update intended only to provide a refreshed design with simplified navigation and improved performance and responsiveness.
