

May is Mental Health Awareness Month ^[1]

April 24, 2024 by [Employee Services](#) ^[2]

Mental health is essential to everyone's overall health and well-being, however mental illnesses are common and treatable.

So much of what we do physically impacts us mentally – it's important to pay attention to both your physical health and your mental health, which can help you achieve overall wellness and success.

Mental illnesses are real, and recovery is always the goal. Living a healthy lifestyle may not be easy but can be achieved by gradually making small changes and building on those successes. Finding the balance between work and play, the ups and downs of life, physical health and mental health, can help you on the path towards focusing on both.
