Championing cyber safety: Cybersecurity Awareness Month at CU [1]

October 1, 2024 by ES and UIS Communications [2]

Cybersecurity Awareness Month is a global effort to promote cybersecurity best practices and increase awareness of security threats among organizations and individuals.

The University of Colorado is a proud champion of Cybersecurity Awareness Month [3] and will host a drawing, several events and informative sessions for you to get involved with the initiative.

Complete the cybersecurity course by Oct. 31 for a chance to win $100

All employees who complete the Information Security Awareness Skillsoft Percipio course [4] will be automatically entered into a drawing to win $100. From Oct. 1–31, all employees who take the course will be entered to win!

The Office of Information Security will select 10 winners who will be notified in November. You're eligible to win even you if completed the course within the past two years, as the course content is updated annually. The prize will be deposited into the winners' payroll accounts and relevant taxes will be covered by OIS.

Employees can access the course on Skillsoft Percipio. Need a walkthrough on how to use the new Skillsoft Percipio platform? Read the Employee Services guide on how to use Skillsoft Percipio [5] and watch the helpful overview video [6].

Visit the Information Security Course Compliance FAQs site [7] for more information and email SecurityAwareness@cu.edu [8] with any questions.
