

Display Zoom Integration with Outlook ^[1]

April 9, 2021 by [UIS Communications](#) ^[2]

As an additional security measure, we are requesting that **all users confirm that their Zoom integration with Outlook is disabled, using this [step-by-step guide](#)** ^[3].

PLEASE NOTE: This integration setting does NOT affect how Outlook works with Zoom, but rather what information Zoom is available to access in your Outlook/O365 account. You will still be able to use Zoom's Outlook plugin as you always have when scheduling meetings.

You can still set up the Zoom Client for Meetings or Zoom Plugin for Microsoft Outlook using this [step-by-step guide](#) ^[4].

[Zoom](#) ^[5], [security](#) ^[6]
