

How to get a Zoom license ^[1]

June 7, 2021 by [UIS Communications](#) ^[2]

The University of Colorado worked with Zoom to establish an enterprise license agreement. This gives all CU users cloud recording and participant reporting functionalities, plus it reduces complexity for our students, faculty and staff in terms of use and maintenance.

In many cases, we already have a license for you as we manage CU's license pool across the system. If a new license is needed for a product we don't currently have (for example, a webinar 500+ person license), a purchase requisition will need to be entered in CU Marketplace.

If you need a Zoom license, follow these instructions on how to obtain a license. If you have questions, email help@cu.edu ^[3].
