

How to use Zoom Whiteboard [1]

July 23, 2020 by [UIS Communications](#) [2]

Struggling with collaboration while working remotely? The Whiteboard functionality in Zoom can help! Here's how to use it:

1. After starting Zoom, select the **Share Screen** button located in the bottom tool bar.
 1. Having issues sharing your screen? Learn why [here](#) [3].
2. Click the second option at the top, **Whiteboard**.
3. Click **Share**.
4. You can show and hide the Whiteboard tools, known as [annotation tools](#) [4], by pressing the Whiteboard option in the meeting controls.
5. Use the page controls on the bottom-right corner of the whiteboard to create and switch between pages. Note: Only the host or the participant who began sharing the whiteboard is capable of creating and switching pages.
6. To end sharing the whiteboard, click **Stop Share**.

Having multiple whiteboards in a meeting is possible if simultaneous screen sharing is on. This allows more than one participant to share a whiteboard. However, to see two whiteboards at once or your own whiteboard and another participant's, you will need to have [dual monitors](#) [5] enabled.

Learn more [here](#) [6].
