

Use a softphone to replace your office phone ^[1]

November 5, 2020 by [UIS Communications](#) ^[2]

As System Administration staff continues to work from home, consider using a softphone to your computer to make phone calls.

Once you have a softphone installed, you can place and receive calls directly from your computer with no need for a physical desk phone. The softphone feature is available on PC, Mac, and mobile devices. Plus, your CU phone number will remain the same.

Use our [how to guide](#) ^[3] to see if you have Cisco Jabber on your computer. If not, request a softphone from the [Service Desk](#) ^[4].
