

VPN connection required for select CU resources [1]

May 21, 2020 by [UIS Communications](#) [2]

In the past, we've reminded you to always double check that you are connected to CU System's Virtual Private Network (VPN) when working remotely, ensuring you have a secure, encrypted connection to our network. This VPN connection is required to access many CU-specific applications.

Earlier this month, UIS made it easier to identify when a VPN connection is required to access select CU Resources portal tiles. Each tile requiring a VPN connection is now marked with a red VPN label:

Need a refresher on connecting to the VPN? Check out the [UIS Service Desk how-to-guides on configuring Cisco AnyConnect VPN](#) [3].
