

Windows 10 updates coming soon ^[1]

March 11, 2021 by [UIS Communications](#) ^[2]

UIS will send updates to users with out-of-date machines to upgrade to the latest version of Windows 10 over the next few months. If your computer needs updated, UIS will notify you in advance. Updates have been scheduled for Thursdays—you select the date and time window that works for you and will take about an hour to complete. Prior to the upgrade, make sure you are synced with OneDrive. During the upgrade, you must be connected to the VPN and plugged in.

Changes will be minimal but will include increased speed, change in design and improved screen capture tool.

When it's your turn to upgrade, use our [how-to-guide](#) ^[3] and [website](#) ^[4] for guidance.
