

AutomateNow! rollout saves CU in time and money ^[1]

August 13, 2026 by [ES and UIS Communications](#) ^[2]

AutomateNow! (ANOW) replaced Automic as UIS's batch scheduler platform as of July 31. The UIS Production Services team migrated thousands of data processes and scheduled batches into this new platform to ensure a seamless transition.

While the functionality is the same as Automic, ANOW is not only a more advanced platform, but completes the same tasks at a lower cost. Over the next five years, this change will save the University an estimated \$225k.
