New tooltip glossary now live for maintenance terms ^[1]

February 18, 2019 by [UIS Communications](#) ^[2]

[Maintenance Matters](#) ^[3], the UIS blog for all upcoming CU maintenance outages, now has a tooltip glossary for systems definitions.

Don't know the difference between a TTO Portal and a R25 Interface Server Application? Now you can see the definition instantly. The new tooltip glossary allows readers to scroll or hover over a specific term and see the definition without clicking or leaving the page.

Description:

All university non-production services will be unavailable during a **12-hour maintenance window on Friday, March 8.**

Non-production maintenance windows affect the testing and development versions of production systems to allow for development.

Timing: 6 a.m. to 6 p.m. Friday, March 8

What systems are down?

CAMPUS SOLUTIONS

CU-SIS Campus Solutions (CS) is the primary component of CU Student Integrated Systems (CU-SIS). It encompasses many functions directly related to student administration, faculty workload and course management.

Affected non-production applications include: [Campus Solutions](#) | [Campus Solutions Application](#) | [Cherwell](#) | [CIW](#) | [Concur](#) | [CRM](#) | [CU-Data](#) | [CU Marketplace](#) | [DATC Portal](#) | [eRA](#) | [FIN](#) | [HCM](#) | [ImageNow](#) | [Integration Gateway](#) | [ISSS](#) | [My Leave](#) | [O Parchment](#) | [Phire](#) | [R25 Interface Server Application](#) | [Secure Enterprise Search](#) | [File Transfer Protocol](#) | [SharePoint](#) | [Skillsoft](#) | [TeamMate](#) | [TTO Portal](#)

Not sure if you use these systems? Visit the [UIS Glossary](#) for details on each application.

All production services will be available. Production services are systems with real-time data that is available to students, staff and faculty.

[Visit Maintenance Matters to try it out](#) [3].

The full glossary is still accessible and linked on every blog.
