**GunyaPriya  
NarasimhaReddy**

6/8/2026

Senior  
Enterprise  
Applications  
Developer

Priya has eight years of experience as a PeopleSoft Application Developer, specializing in enterprise application development, system integrations, process automation and delivering scalable solutions that support complex business environments.

As a Senior Enterprise Applications Developer, Priya designs, develops and supports PeopleSoft applications and integrations, partnering with stakeholders to enhance business processes, improve system efficiency and deliver reliable technology solutions across the university.

Outside of work, Priya enjoys playing badminton, hiking and acrylic painting. She loves spending time with her family and has a 14-month-old. Chasing her around becoming one of her favorite adventures.

**Changes within UIS**

|                              |          |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>Angelica Throckmorton</b> | 5/1/2026 | Assistant Director, HCM Systems | <p>Since joining the CU family in November 2012, Angelica's career has come full circle. She progressed from managing applicant tracking and payroll operations in Employee Services to serving as the UIS Payroll Application Manager in 2017, dedicating her efforts to elevating and supporting the University's critical systems.</p> <p>In her new role, she is excited to lead HR IT Services by providing strategic direction for the PeopleSoft HCM platform. By partnering with stakeholders across the university, mentoring the teams and driving key initiatives, she looks forward to ensuring the HR systems deliver operational excellence and seamlessly adapt to evolving business and regulatory needs.</p> <p>As a Colorado native, her heart belongs to the great outdoors. Angelica loves camping and hiking alongside her husband and their three Shiba Inu dogs. When she isn't out exploring the trails, you can usually find her cheering on her favorite home teams, the Denver Broncos and the Colorado Avalanche.</p> |
| <b>Sharon Schryver</b>       | 6/1/2026 | Solutions Team Manager          | <p>Sharon has been on the HRIT Services team in UIS since 2018 serving as the HRGL Solutions Manager. In her new role as Solutions Team Manager, she will be supporting the HCM payroll module.</p> <p>Sharon lives in Erie with her husband, Jonathan, and dog, Riversong, and enjoys traveling.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
