

3-D mammography now covered as preventative care under Anthem CU Health Plans ^[1]

July 3, 2017 by [Employee Services](#) ^[2]

CU employees enrolled in an Anthem CU Health Plan no longer have to pay out-of-pocket for 3-D mammography breast cancer screenings.

As of June 6, 3-D mammograms are covered under your preventative care services for CU Health Plans administered by Anthem Blue Cross Blue Shield.

Anthem administers the following plans:

- CU Health Plan - Exclusive
- CU Health Plan - Extended
- CU Health Plan - High Deductible
- CU Health Plan - Medicare

CU Health Plan – Kaiser does not cover 3-D mammography.

As a member of one of these plans, in-network preventative care visits require no out-of-pocket costs, and the deductible does not apply. This means that 3-D mammograms are completely covered under your current benefits plan.

For a complete review of your medical plans, visit the Employee Services' website.
