CU Resources portal upgraded July 21. See what changed. [1]

August 2, 2018 by UIS Communications [2]

A redesigned CU Resources area of the <u>employee portal</u> [3] went live in July. **This only** affected the CU Resources area, not faculty or student portals.

This update gave employees several upgrades, including:

- A responsive design that lets the portal render on tables and mobile devices
- New search features that will allow you to find items throughout the portal
- Drag and drop tiles to personalize your homepage
- A drop down menu accessible throughout the portal

What does this mean for you?

- Approvals and timecards on the go
- Easily search for items in the search bar
- Customizable homepage for the items you use the most
- Fewer clicks to get to what you want with more homepage tiles
- A more personalized, efficient experience

View our webpage for an overview of recent changes.
