Ensure that your demographic information is correct in the portal [1]

August 10, 2018 by Employee Services [2]

Employees are encouraged to update their demographics within their employee portal. This information includes ethnic group, disability and veteran status. It is voluntary to provide demographic information to the University of Colorado, but encouraged and confidential. By providing this information, employees can help the university identify underrepresented populations and fulfill the federal requirement to report employee demographic data on an annual basis.

Here’s how to update it:

1. Log into your campus portal [3].
2. Open the CU Resources Home dropdown menu and select My Info and Pay.
3. Click on the My Info tile.
4. On the left-side navigational bar, you can update your information by selecting Ethnic Groups, Disability and Veteran Status.

Display Title:
Ensure that your demographic information is correct in the portal
