

The latest project management resources are available in Skillsoft ^[1]

May 4, 2018 by [Employee Services](#) ^[2]

If you're preparing for project management certifications, the newest PMBOK resources are now in available Skillsoft. The old versions will be retired on May 18.

The [Project Management Professional \(PMP\)](#) ^[3] and [Certified Associate in Project Management \(CAPM\)](#) ^[4] exams will no longer be based on the fifth edition of the PMBOK Guide. The sixth edition PMP exam is now available and the updated CAPM exam will be released **May 21**.

With this change, Skillsoft has released more than [35 new training resources](#) ^[5] based on the sixth edition tests. If you plan to take the exams before May 18, continue using the fifth edition resources until they are removed from Skillsoft — be sure to print any resources you would like to keep. If you are planning to take the exams after May 18, prepare by using the sixth edition resources.

Training records will be retained for completed courses, even if they are being removed. Your Certificates of Completion will not be lost.
