LinkedIn Learning is coming to your portal Sept. 30: Here's how to prepare [1]

September 17, 2019 by Employee Services [2]

On Monday, September 30, LinkedIn Learning will be available to all CU employees and students through your CU portal. This learning system offers the same Lynda.com courses and videos and offers updated functionality including personalized course recommendations.

With this upgrade, you have the option to connect your personal LinkedIn account. When connected, LinkedIn Learning is able to offer you a more personalized learning experience, including trending courses and course recommendations based on your LinkedIn profile.

Here's how to get ready for LinkedIn Learning:

- **Review your Lynda.com content.** Complete any courses you would like to remain within your account. All completed coursework will be available after the upgrade and all incomplete learning history will not be available in LinkedIn Learning.
- **Update your LinkedIn profile.** If you choose to connect a LinkedIn profile to the system, an updated profile will provide the most up-to-date and relevant course recommendations to enhance your experience.
- **Prepare for upcoming outages**. Lynda.com will be unavailable starting 12 a.m. September 23 to 8 a.m. September 30.

Learn more about this free career development platform and discover new features. [3]
