New Time & Labor go-live set for March 28 [1]

November 18, 2026 by ES and UIS Communications [2]

The University of Colorado has set March 28, 2027, as the new go-live date for Time & Labor [3], CU's new timekeeping system.

CU is taking additional time to complete third-party integrations, conduct necessary testing and help ensure a stable and successful transition.

What employees need to know

Employees should continue using their current timekeeping and payroll processes until Time & Labor goes live on March 28.

The transition of nonexempt (overtime eligible) employees from a monthly pay schedule to a biweekly, paid-in-arrears pay schedule will also start on March 28. Updated employee resources and toolkits will be available in early December on the Payday Schedule Change webpage [4].

CU appreciates the work of employees who participated in User Acceptance Testing and the engagement of employees who have been preparing for these changes.
