Percipio enhancement to include supervisors on overdue assignment notifications [1]

May 30, 2026 by ES and UIS Communications [2]

A new feature in Skillsoft Percipio will support improved tracking of required learning assignments.

With this enhancement, **overdue assignment notifications that are automatically sent to employees will also be automatically cc'd to employees' direct supervisors**, as identified in HCM. This will provide supervisors with greater visibility into outstanding training and help ensure timely completion of required coursework.

To review course completions as an employee or supervisor, refer to the Training Summary guide [3].

Employees are encouraged to complete assigned training by the due date to avoid escalation notifications.
