Analysis Type required for JEs using Projects [1]

In Journal Entry, the ANALYSIS TYPE (An Type) code is required for every journal line with a project SpeedType.

The Analysis Type value affects what is billed for the project.

In actual journal entries, enter:

- **GLE** if the Account ChartField value is an expense (between 400000 and 989999)
- **GLR** if the Account ChartField value is a revenue (between 200000 and 399999)
- **BAL** if the Account ChartField value is a balance sheet transaction (<= 199999)

In budget journal entries, enter **BUD**.
