What is CPE for CPAs?

The Office of University Controller (OUC) has been offering the CU CPE (Continuing Professional Education) Program since September 14, 2011. Sponsored through NASBA (the National Association of State Boards of Accountancy), the program provides **relevant, timely courses** to help CU **CPAs meet their continuing educational requirements** ... and to **help all employees understand and fulfill their fiscal roles and responsibilities**.

CPE Program Benefits

Affordable

The CU CPE program is offered at no cost to current CU employees (this excludes retirees of the University and contract workers). Looking for affordable professional development but don't need formal CPE? We're here for you, too.

Relevant

We value your time and effort. As business professionals, you expect to see results. Our course topics are relevant to your professional and personal growth. You'll be able to apply what you learn here.

Convenience

Location, location, location! Our in-person courses are conveniently located at various CU campus locations. We also offer live webinars. Recordings of webinars are available for professional development, not for CPE credit.

NASBA Sponsored

For those of you who need CPE: we are a sponsored CPE provider through the National Association of State Boards of Accountancy (NASBA). This assures you that all courses are developed through a rigorous quality-controlled process, and that all instructors are highly qualified.

Frequent

We're committed to providing quality Continuing Professional Education courses on a regular basis throughout the year.
