Craig Hurter - CPE Instructor [1]

Craig Hurter is the Shared IT Security Services Manager for the University of Colorado. His role encompasses management of the Security Awareness Program at the University of Colorado System.

Craig has been responsible for vulnerability management and mobile device security in his previous role as IT Security Manager for the University of Colorado Boulder. He has over 20 years of experience in Information Technology, with his primary focus being IT security for the past six years. He has also worked in the non-profit, retail, legal, and education sectors.

Craig is currently pursuing his Bachelor of Science-Information Technology Security.
