

Defending Your Data: Mobile Devices and Associated Risks ^[1]

The purpose of this course is to discuss different threats that the mobile devices and the data on them are subjected to, and the controls that the users can implement in order to counter them. The University of Colorado has policies and standards that address the use of mobile devices. This course will review these policies and standards and make the users aware of them.

Program Level: Basic

Prerequisites: None

Advanced Preparation: N/A

Instructional Method: Group-Live

Instructor: [Craig Hurter](#) ^[2]

Recommended CPE Credit: 2.0 Hours

Field of Study: Information Technology

Course Objectives:

At the end of the course, participants will be able to:

- Identify threats faced by mobile devices and the corresponding risks;
- Describe controls to secure mobile devices; and,
- Identify University policies and standards that address the use of mobile devices.

Program Policies ^[3]

NASBA Statement:

The University of Colorado is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have final authority on the acceptance of individual courses for CPE credit. Complaints regarding registered sponsors may be submitted to the National Registry of CPE Sponsors through its website: www.learningmarket.org ^[4].
