

Elevate: FIN - Journal Entry Learning Resources ^[1]

Processing Journal Entries ^[2]

Processing Journal Entries in FIN 9.2 will have the same look and feel as in FIN 8.4, however, there will be additional features and options, such as centralized navigation for all journal entry types, the ability to electronically attach supporting documentation, and using spreadsheets to upload journal entries.

Workcenters ^[3]

Workcenters are a new feature available in FIN 9.2. Workcenters are customizable, central locations where you can begin all of your work within FIN 9.2.

Workflow ^[4]

Workflow refers to how transactions are routed through FIN 9.2 for processing and approval. Because this process will be streamlined and automatic, you will need to familiarize yourself with its features, such as notifications and worklists.
