

FIN How-to: Using Saved Searches [1]

The Saved Searches feature makes it easier for you to find journal entries.

You might save a search to quickly find journal entries:

- ?created by a specific user.
- not posted for your source code.
- created after a specific date.

Other search pages in PeopleSoft/FIN also have saved search options that function similarly to what is described below.

Read the procedures

Creating a Saved Search

1. Log into the Finance System.
2. From the **Finance & Accounting** homepage, click on the **Create/Update Journal Entries** tile.
3. From the **Find an Existing Value** window, perform your search.
Note: If you have inquiry access, you will already be on the Find an Existing Value page. If you have access to create journal entries, you may have to click the Find an Existing Value button.
