CU I&E Submission: Annual Financial Reporting Online [1]

Description: In an effort to increase the transparency and accessibility of our financial reports, the 2013 Annual Financial Report has been produced as an HTML website.

How does this benefit the University? Benefits to the interactive HTML format include:

Improved search capability and accessibility
A more mobile and tablet-friendly design
Elimination of printing costs ($5,000 annually)
Addition of color graphs
Easier access to related notes and other information

Implementation status: This was first launched in February of 2014.

Submitted by Travis Chillemi, Communications Principal Professional, Office of University Controller, System Administration
