Finance Inquiry and Journal Entry Courses - Updated in Skillsoft [1]

August 4, 2023

We recently updated two online courses in Skillsoft: PeopleSoft Finance System Inquiry and PeopleSoft Finance System Journal Entries.

With the revised versions, you'll see standardization of ChartField and system definitions in the FIN Inquiry course and simplification of basic accounting terminology in the JE course. We also replaced Inquiry and JE screenshots to reflect any updates to the FIN user interface since the courses' last Skillsoft revision -- and aligned content to comply with the current Skillsoft style guide, including considerations for second-language English speakers.

For information on when these courses are needed for system access -- and how to launch them -- please refer to the PeopleSoft FInance (FIN) tab on our Access & Training Requirements [2] webpage.
