CU Innovation & Efficiency Awards: Here are the Semifinalists [1]

May 9, 2022

You've been doing great work on the campuses this past year, successfully navigating the complexities of on-site, hybrid, and remote work. You've told us about many of your projects and accomplishments, as witnessed by this year's CU Innovation & Efficiency Awards Program submissions.

We've narrowed the pool to eight semifinalist teams who completed video interviews and responded to in-person questions as part of the final selection process to determine awards. The award winners will be announced later this month and will be chosen from the following:

- Accurate Third-Party Corporate Payment Posting [2]
- Automated POI Creation and Extension Process [3]
- Automated Processing of Electronic XML Transcripts [4]
- Critical Patch Updates for PeopleSoft Systems [5]
- Environmental Sampling for Research Rodent Health Surveillance [6]
- Grant Proposal Management Utilizing the REDCap Portal [7]
- Invention Evaluation and Licensing Process Enhancements [8]
- Tableau Server Project (UIS) [9]

Look for next week's awards announcement ... and think about sharing your own great work to the 2023 awards program!

Questions? Contact CU I&E Awards Program Manager Fran Chapman [10].
