

## **Rob Lucas** <sup>[1]</sup>

### **Financial & Reporting Systems - Financial Systems Analyst**

Rob is responsible for supporting the creation, maintenance and attribute-related issues for speedtypes and ChartFields. He helps campuses resolved issues with account balances for speedtypes and projects. He assists in the development and maintenance of the ePERs system for Sponsored Project Offices including troubleshooting any items that are encountered as part of daily ePERs data issues, system upgrades and enhancements. Rob also maintains the Organizational Tree in PeopleSoft for all of the campuses.

#### **Questions Rob can answer**

- How do I reorg my program/project and what is involved?
- Reclassification (RRCL) Journals. What are they for?
- If I change an attribute on a project, what will happen?

#### **Facts**

- Rob started working for the University on 07/15/1996.
- He is a graduate from Metropolitan State University of Denver (BS - Accounting, 1996).
