Finance System Annual Update February 2024 [1]

The annual PeopleSoft Update Manager (PUM) update for the Finance System is scheduled for February 18, 2024.

With this year's update, you will see enhancements to the User Interface (UI) on FIN search and add pages. You won't see any changes to the inquiry or transactional pages themselves. For examples of the new search/add page features, see the Journal Entry screenshots below. *Individuals with access to HCM will note similarities with some UI changes in HCM last year.*

Journal Entry search/add page, BEFORE February 18, 2024:

Journal Entry search/add page, AFTER February 18, 2024 -- Click the hotspots below for additional information. Note that:

- Recent Pages and Favorites are now on the top bar of all pages instead of just on the left side of home pages. (They are also still on the NavBar.)
- On search pages, Add a New Value and Find an Existing Value are no longer tabs near each other. Now they appear on opposite sides of the page.

Journal Entry search results grid, AFTER February 18, 2024 -- Click the hotspots below for additional information. Note that:

- Grid lists showing search results no longer have a link on each field in the columns. Now you can click anywhere on the line (even in spaces between fields) to select a specific row to display.
