Travis Chillemi [1]

Travis Chillemi is the Strategic Communications Technology Manager at the University of Colorado, Office of University Controller, Finance and Procurement Business Services. He enjoys building and designing communication tools that are efficient and easy to use. He is willing to use nearly any tool, technique, or technology to do so. Over the past 10 years this has included:(X)HTML, CSS, PHP, MYSQL, Javascript, jQuery, Adobe CS5, MovableType, Drupal, WordPress, and a few other acronyms.

Recently, Travis' focus has turned to leveraging web-based communication tools in corporate and educational settings. He enjoys teaching others how to leverage these tools to improve communication efficiency and foster a greater understanding of how technology can improve our workplaces.
