

CWC Survey at System Administration ^[1]

About the CWC Survey

The University of Colorado is committed to creating an inclusive environment where all members of our community feel respected, supported, and valued. The purpose of the Campus and Workplace Culture Survey is to gather information from CU students, staff, and faculty about their academic, workplace, and residential environments.

At System Administration, the survey was administered in fall 2021 through a collaboration between the Offices of Collaboration and Institutional Research, in coordination with Employee Services. It was conducted at the request of the CU Board of Regents and will be administered every four years to help the university stay informed about the lived experiences of students, faculty, and staff across campus environments.?

2021 Survey Results
