# Every day, thousands of gigabytes of data pass through the CU Servers.

To ensure that data is managed as a sensitive asset, the University of Colorado has established a data governance program with the goals of ensuring that data provides value, meets compliance requirements, and risks are managed proactively.
If you have a specific request, please email the **Data Governance group**. [1]

**Below, find resources on topics crucial to cohesive and secure data management.**

DATA POLICIES & GUIDELINES

DATA ROLES & RESPONSIBILITIES

SOLUTIONS
& SUPPORT

Secure user access

UIS provides reliable and secure access to systemwide software platforms crucial to employee work. Please visit the Access and IT Security web page [6] to find resources for onboarding, identity and password management, access coordinators and for employees to request access.

Request access [6]

For access information specific to Collibra, visit the Collibra Access web page [7].
