

## **Simple Email - eComm Checklist** <sup>[1]</sup>

### ***Simple Email - eComm Checklist***

Download this checklist (scroll to bottom) if you are building and sending an eComm Marketing Cloud email that does NOT include a link to a Cvent event registration form. Your campus eComm specialist's role is to provide an audience report (or list).

<b>STEPS</b>	<b>TIME FRAME</b>	<b>TASK</b>
--------------	-----------------------	-------------

<p>STEP 1: <i>STRATEGIZE</i></p>	<p>5 weeks</p>	<p><b>IDENTIFY GOAL, MESSAGE, AUDIENCE &amp; DESIRED ACTION</b></p> <p><i>This is a fictitious example</i>  <b>GOAL:</b> To announce employee award  <b>MESSAGE:</b> CU President Bruce Benson announces Employee of the Year  <b>AUDIENCE(S):</b> CU System employees  <b>ACTION:</b> Read email and visit <a href="http://www.cu.edu">www.cu.edu</a> <sup>[2]</sup> webpage for more info</p> <p><b>SET IMPORTANT DATES</b></p> <p>Dates often drive communications. Identifying dates and working backwards from there and building in plenty of time for your readers to take action is the best strategy. Using our fictitious example, here's important dates that our email campaign will work towards.  <b>JUNE 1:</b> Employee is awarded Employee of the Year award  <b>JUNE 2:</b> <a href="http://www.cu.edu">www.cu.edu</a> <sup>[2]</sup> website is updated with a press release  <b>JUNE 2:</b> Email announcement is sent to CU System employees</p> <p>It's important to plan for reminder emails at this stage as well. Plan for them and engage the right people so you are not making your emergency theirs.</p>
<p>? STEP 2: <i>EXISTING CHANNELS</i></p>	<p>5 weeks</p>	<p><b>CAPITALIZE ON EXISTING CHANNELS</b></p> <p>No need to reinvent the wheel. Check out existing <u>campus communication channels</u> <sup>[3]</sup> (eg; <i>CU Boulder Today</i>). If any are being sent to your desired audience, request to have your topic included in their next issue. This will broaden your reach and increase engagement.</p>

<p style="text-align: center;">? STEP 3: AUDIENCE</p>	<p style="text-align: center;">5 weeks</p>	<p><b>IDENTIFY YOUR AUDIENCE</b></p> <div style="border: 1px solid gray; padding: 10px; margin: 10px 0;"> <p>Sending everything to everyone is not the best way to increase engagement and overall goodwill with CU constituents. This practice could lead to global unsubscribe activities, which affect all CU communications, including any future communications you send.</p> <p><b><i>Who would be most interested in your message?</i></b></p> </div> <p><b>OTHER AUDIENCE DETAILS</b></p> <div style="border: 1px solid gray; padding: 10px; margin: 10px 0;"> <p>If you have a list of individuals who need to receive your communication and who are not in a CU source system, prepare a spreadsheet and include as many details as possible.</p> <p><i>At a minimum, we need the following data points to process your list (each in a column):</i></p> <ul style="list-style-type: none"> <li>ID number (eg; Employee ID, Student ID, Salesforce Contact ID, etc.)</li> <li>First name</li> <li>Last name</li> <li>Email</li> </ul> </div>
---	--	---

?  
STEP 4:  
CONTENT

4 weeks

#### WRITE THE MESSAGE

1. Write email message and ensure it meets email marketing best practices. You can do this in a Word doc or text editor. Get all the details ready before you build it in Marketing Cloud.

- Is it short, easy to read and compelling?
- Identify the "actionable component." This may be "read more," "Register" for an event, "donate," etc. Identify this item in a prominent way within content. You might do this with a button, large font or use a Marketing Cloud Content Block.
- Identify contact information. This is not only a best practice, but is required under CAN-SPAM legislation (address, phone and email)
- Get message edited or at least reviewed by a second set of eyes to check for spelling, grammar, etc.

2. Write a compelling subject line

3. Write a pre-header (for mobile devices). [Learn more about pre-headers](#) [4].

#### DEVELOP LANDING PAGE

Most, if not all, email communications should send reader somewhere else, such as a website, registration form, etc. This must be ready in advance. Create a clear and easy-to-follow landing page so your reader can quickly accomplish your desired task.

- Is it obvious to the reader what you want them to read or take action on?
- Ensure the reader does not have to click somewhere else or at least keep the number of clicks to a minimum
- Ensure easy-to-find contact information is available on the landing page

#### COLLECT ASSETS

eComm already has CU branded headers and buttons (e.g. register, donate, etc.) but if you would like to

<p>? STEP 5: SUBMIT</p>	<p>2 WEEKS (at least)</p>	<p><b>Download the Checklist</b> [10]</p> <p><b>Do you have something to add?</b></p> <p>Your <u>campus eComm specialist</u> [7] will develop your audience list(s). Don't forget about reminder and follow-up email lists. Put your request in now!</p> <p><b>Send a note to Kim at <a href="mailto:kim.egan@cu.edu">kim.egan@cu.edu</a>.</b> [11]</p> <p><u>Submit List Request</u> [8]</p>
<p><b>Groups audience:</b> eComm</p>		<p>REVIEW</p>
