Kaiser [1]

Under this Kaiser-administered plan, you can choose any healthcare provider [2] within one single statewide network. It is recommended that you select a primary care physician to direct your care. In most cases, referrals [3] are required. However, you may self-refer to certain specialists [4]. In place of a deductible [5], enrollees will be responsible for a copay [6]. This plan provides one no-cost preventative mental health visit per plan year. Learn more about your mental health benefit options on our Mental Health Resources page [8].

Out-of-network care is not covered except for emergency care [9] that must be treated at the emergency department of a hospital due to an illness, injury, symptom or condition severe enough to risk serious danger to your health (or, with respect to a pregnant woman, the health of her unborn child) if you didn’t get medical attention. See where and when to get care. [10] and/or urgent care [11].

Features and considerations

EPO Exclusive Provider Organization (EPO)
A health care system designed to give you access to quality, cost-effective service. With an EPO, such as the case of our CU Health Plan Kaiser, you will have access to providers within the Kaiser Network. Your Primary Care Provider, in most cases, will manage and coordinate any care of a specialist you may need by providing you with a referral within the network. There are no out-of-network benefits with the exception of emergency care. [18] - Kaiser network
Deductible - Kaiser Plan
An amount that you are required to pay before the plan will begin to reimburse for covered services. This plan has no deductible. [6]

Out-of-pocket limit
Out-of-Pocket Limit/Maximum (OMP) The maximum amount of money you will pay for covered medical services during the plan year. These costs include deductibles, copays and coinsurance. This maximum is designed to protect you from catastrophic health care costs. After you reach this amount, the plan will pay 100% of the allowed amount. [19]

$0

$9,100/individual; $18,200/family for in-network providers

Office visit
Primary care provider - $30/visit
Specialist
A physician specialist focuses on a specific area of medicine or a group of patients to diagnose, manage, prevent, or treat certain types of symptoms and conditions. A non-physician specialist is a provider who has more training in a specific area of health care. [5] - $40/visit

Urgent care
Urgent Care Care for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe as to require emergency room care [11] - $30/visit

$250 (waived if admitted)

Emergency care
Emergency Care A medical or behavioral health condition that must be treated at the emergency department of a hospital due to an illness, injury, symptom or condition severe enough to risk serious danger to your health (or, with respect to a pregnant woman, the health of her unborn child) if you didn’t get medical attention. See where and when to get care. [10]
