**What is an FSA?**
FSAs (Flexible Spending Account) A tax-savings account set up by you to pay for certain qualifying expenses on a pre-tax basis, meaning before they are made subject to payroll taxes. [2] allow you to set aside money for certain expenses (medical, child care/elder care costs). You don't pay taxes on this money, meaning you'll save an amount equal to the taxes you would have paid. Accounts are subject to a "use-it-or-lose-it" rule each year. [3] The IRS regulations in regards to the money you elect to contribute to flexible spending accounts that must be spent and claimed within the designated period of time or the monies will be forfeited.
What is an HSA?

An HSA (Health Savings Account) is a tax-savings account that must be paired with a High-Deductible Health Plan, which can be used to pay for qualified health care expenses now or in the future. An HSA is a savings account that you own. The funds in an HSA carry forward year after year, even if you change employers or retire. A tax-savings account that must be paired with a high-deductible health plan and can be used for qualified medical expenses. Qualifying Health Care Expenses include medical, dental or vision care for yourself and your tax dependents, as defined in Code Section 213(d) under Code Section 105. Like a doctor’s visit or prescription drugs. The money you put into an HSA rolls over from year to year. An HSA is a savings account that you own. The funds in an HSA carry forward year after year, even if you change employers or retire. A HSA (Health Savings Account) is a tax-savings account that must be paired with a High-Deductible Health Plan, which can be used to pay for qualified health care expenses now or in the future. An HSA is a savings account that you own. The funds in an HSA carry forward year after year, even if you change employers or retire.
