PERA 457 [1]

All eligible employees can enroll in the PERA 457 plan. This is a defined contribution plan that employees can choose whether to contribute funds before or after tax.

- The pretax option lowers your taxable income now. You'll pay taxes on your distributions in retirement.
- The 457 offers a Roth option. Consider the Roth option if you want to contribute after tax, allowing for tax-free growth and tax-free distributions in retirement.
    - Beginning Jan. 1, 2026, employees 50 or older making more than $150,000 a year must designate catch-up contributions as Roth contributions. This means taxes will be taken out of the catch-up amount before it is contributed to the plan.
