Exclusive [1]

Under this Anthem-administered plan, you can choose any health care provider within one single statewide network [2] The facilities, providers and suppliers with whom your health insurer or plan has contracted to provide health care services [2], giving you access to a great number of doctors and specialists [3] A physician specialist focuses on a specific area of medicine or a group of patients to diagnose, manage, prevent, or treat certain types of symptoms and conditions. A non-physician specialist is a provider who has more training in a specific area of health care [3] across the Front Range. You will receive care at UCHealth facilities by physicians from the CU School of Medicine, UCHealth Medical Group and others. Your primary care provider [4] Primary Care Provider (PCP) A physician (medical doctor or doctor of osteopathic medicine), nurse practitioner, clinical nurse specialist or physician assistant, as allowed under state law, who provides, coordinates or helps a patient access a range of health care services [4] manages your care, so you'll need to get referrals [5] Referral A written order from your primary care provider for you to see a specialist or receive certain health care services for any covered service that cannot be performed by your primary care provider. This applies to our Anthem Exclusive and Kaiser plans. [3] to see specialists [3] A physician specialist focuses on a specific area of medicine or a group of patients to diagnose, manage, prevent, or treat certain types of symptoms and conditions. A non-physician specialist is a provider who has more training in a specific area of health care [3] with the exception of OB/GYNs, ophthalmologists, chiropractors or acupuncturists, within the Exclusive Plan network. [2] The tradeoff is that you'll save money by doing so.

There is no out-of-network [6] Out-of-Network Non-participating providers or facilities that do not enter into a network agreement, usually resulting in higher out of pocket expenses to you. [6] coverage except for urgent and/or emergency care.

Features and considerations

**Plan type**

| Plan type | HMO | Health Maintenance Organization (HMO) |

A managed health care system designed to give you access to quality, cost-effective service while optimizing utilization and cost of service. With an HMO, such as the case of our CU Health Plan Exclusive, you must choose a primary care provider from a network of physicians, facilities and other providers affiliated to CU. Your primary care provider will manage and coordinate any care of most specialists you may need by providing you with a referral within the network.

Deductible - Exclusive Plan

An amount that you are required to pay before the plan will begin to reimburse for covered services. Copay services, such as office visits, do not apply to deductibles. This plan has an “individual deductible” of $250 up to $750 maximum for family coverage. This means that when each member satisfies their individual deductible, that member is eligible for benefits. When there are more than three (3) covered members, the full amount of $750 can be reached collectively.
