Kaiser [1]

Under this Kaiser-administered plan, you can choose any healthcare provider within one single statewide network. It is recommended that you select a primary care physician to direct your care. In most cases, referrals are required. However, you may self-refer to certain specialists. A non-physician specialist is a provider who has more training in a specific area of health care. In place of a deductible, enrollees will be responsible for a copay. This plan has no deductible.

This plan will also provide one no-cost preventative mental health visit per plan year beginning on July 1, 2022. Learn more about your mental health benefit options on our Mental Health Resources page.

Out-of-network care is not covered except for emergency care if you didn’t get medical attention. See where and when to get care.

Features and considerations

EPOExclusive Provider Organization (EPO)
A health care system designed to give you access to quality, cost-effective service. With an EPO, such as the case of our CU Health Plan Kaiser, you will have access to providers within the Kaiser Network. Your Primary Care Provider, in most cases, will manage and coordinate any care of a specialist you may need by providing you with a referral within the network. There are no out-of-network benefits with the exception of emergency care. - Kaiser network
