Under this Kaiser-administered plan, you can choose any healthcare provider within one single statewide network. It is recommended that you select a primary care physician to direct your care. In most cases, referrals are required. However, you may self-refer to certain specialists. A non-physician specialist is a provider who has more training in a specific area of health care.

In place of a deductible, enrollees will be responsible for a copay. A fixed-dollar amount that you must pay out of your pocket at the time of service to a provider or a facility for a specific health covered service. Copays do not apply to the deductible requirement.

This plan will also provide one no-cost preventative mental health visit per plan year beginning on July 1, 2022. Learn more about your mental health benefit options on our Mental Health Resources page.

Out-of-network care is not covered except for emergency care. Emergency care is medical or behavioral health condition that must be treated at the emergency department of a hospital due to an illness, injury, symptom or condition severe enough to risk serious danger to your health (or, with respect to a pregnant woman, the health of her unborn child) if you didn’t get medical attention. See where and when to get care.

Plan details
Covered providers and medications

- Find a provider/urgent care [15]
- Visit Kaiser's microsite [16]
- Call 1-877-883-6698

- 20% coinsurance
- 5 per plan year

**Prescription Drug**
- Brand/Generic

**Physical, Occupational & Speech Therapies**
- 5 combined visits per plan year

Features and considerations

**Plan type**

- **EPO** (Exclusive Provider Organization)
  - A health care system designed to give you access to quality, cost-effective service. With an EPO, such as the case of our CU Health Plan Kaiser, you will have access to providers within the Kaiser Network. Your Primary Care Provider, in most cases, will manage and coordinate any care of a specialist you may need by providing you with a referral within the network. There are no out-of-network benefits with the exception of emergency care. [17]

  - Kaiser network
Deductible
An amount that you are required to pay before the plan will begin to reimburse for covered services. This plan has no deductible. [6]

Out-of-pocket limit
The maximum amount of money you will pay for covered medical services during the plan year. These costs include deductibles, copays and coinsurance. This maximum is designed to protect you from catastrophic health care costs. After you reach this amount, the plan will pay 100% of the allowed amount. [18]

2022-23 Plan Year: $8,700/individual; $17,400/family for in-network providers

Office visit
