

FAML I Case Closure ^[1]

Leave cases will be closed in two ways:

1. The employee is ready to return to work. In cases of continuous leave for serious medical condition for self, this will require return-to-work documentation. This documentation outlines any restrictions the medical provider needs to communicate with CU.
2. The employee has exhausted FMLA, FAML I or Parental Leave. Once the employee exhausts their allotted time in these leave programs, the employment relationship moves back to the department to manage and approve leave.
