

## **CU at the Top** <sup>[1]</sup>

Take your development to new heights.

CU at the Top is a self-paced, personal and professional development program for System Administration employees. The program shows you ways to take your personal and professional growth to new heights. A series of pathways guide your progress. Focused on a specific skillset, each pathway provides classes, workshops, resources, experiences and more to serve as mile-markers in pursuit of your goals.

We've designed this program to create a work environment that supports growth, development and a culture of continuous learning to build talent from within.

## Completed your pathway?

Once you have completed your pathway, you will need to fill out the **Completion Form** indicating the benefits you gained from this program and ask your supervisor to complete the **Supervisor Achievement Form**. They will need to send this form and your finalized checklist to HR for final review.
