This Delta Dental plan grants access to providers, an individual or facility that provides health care services such as a doctor, nurse, chiropractor, hospital, rehabilitation center, etc. only within the Delta Preferred Provider Option (PPO) network. A health care plan that has a contractual agreement with providers to offer health care services at discounted, negotiated fees within a network. The PPO plans may require some cost-sharing with deductibles, copays and/or coinsurance.

Your PPO network is available in Colorado and throughout the United States. Essential Plan members must see a PPO provider to offer health care services at discounted, negotiated fees within a network. The PPO plans may require some cost-sharing with deductibles, copays and/or coinsurance.

Coverage will not be offered for providers outside of the network. Once you meet the $25 per person plan deductible, you'll be responsible for a percentage of your covered care costs, known as coinsurance.
