Employee Services Impact Report [1]

Even in challenging times, Employee Services is here for you.

Employee Services strives to be there for University of Colorado faculty, staff, students and their families when they need us.

Our FY 2020 Impact Report illustrates the ways we're dedicated to making the University of Colorado's workforce strong, healthy and secure through a wide range of services. It highlights how we responded to COVID-19 to maintain access to critical services during social distancing. We also highlight new and familiar programs and interview members of the CU community who use them.

For a full screen view, double click the report below.
