Under this Kaiser-administered plan, you can choose any healthcare provider within one single statewide network. It is recommended that you select a primary care physician to direct your care. In most cases, referrals from your primary care provider for you to see a specialist or receive certain health care services for any covered service that cannot be performed by your primary care provider. This applies to our Anthem Exclusive and Kaiser plans.

Enrollees will be responsible for a copay for covered services. Copays do not apply to the deductible requirement. For example, an office visit may have a copay of $30 under the Exclusive Plan and $40 under the Extended. You must pay the amount at the time of service for medical visits, diagnostic testing and hospital/facilities services.

Out-of-network care is not covered except for emergency care. Emergency care is a medical or behavioral health condition that must be treated at the emergency department of a hospital due to an illness, injury, symptom or condition severe enough to risk serious danger to your health (or, with respect to a pregnant woman, the health of her unborn child) if you didn’t get medical attention. Features and considerations

EPOExclusive Provider Organization (EPO)
A health care system designed to give you access to quality, cost-effective service. With an EPO, such as the case of our CU Health Plan Kaiser, you will have access to providers within the Kaiser Network. Your Primary Care Provider, in most cases, will manage and coordinate any care of a specialist you may need by providing you with a referral within the network. There are no out-of-network benefits with the exception of emergency care. [16] - Kaiser network
