Multifactor Authentication [1]

The University of Colorado uses multifactor authentication to protect personal information in the portal [2]. It takes two items—your password and your phone—to access sensitive information. This decreases the likelihood that others can access your data, even if they have your password.

Protected pages

You will be asked to authenticate your identity only when you try to access the following items
in the CU Resources area of the portal:

- Direct Deposit
- W-2
- W-4
- Phone number
- Additional Information tab in My Info/Personal Details
- Benefits Summary
- Open Enrollment

Click the **Call Me** button.
Answer the call, then press any key on your phone to log in.

Option 2: Receive a text message with a passcode

From the Device drop-down menu, select the phone number where you wish to be contacted.
Click the **Enter a Passcode** button.

A blue bar will appear on the screen. Press the **Text me new codes** button.
You’ll receive a text message from CU with a passcode.

Enter the passcode and press the Log In button.
