Open Enrollment [1]

Open Enrollment closed at 5 p.m. May 10.

Review this site to learn about changes for the plan year beginning on July 1.

This Open Enrollment, the University of Colorado can help get more mileage out of your benefits. Here are few quick things to know:

- **Passive enrollment**: If you would like to keep the same benefit choices, no action is required and you will be automatically re-enrolled. If you want to make a change, we'll provide many ways to learn about and compare plans.
  - **There's one exception**: You must actively enroll in Health Care and Dependent Care Flexible Spending Accounts (FSA) for plan year 2024-25.

- **Now is a good time to consider other benefits**: Do you need to update your beneficiaries, enroll in or adjust voluntary retirement contributions [2], enroll in a Health Savings Account or make changes to your life insurance policies? Even though you can do these things anytime of year, Open Enrollment is a great time to take a closer look.
