Imputed Income [1]

Imputed income is a term for benefits or services that are taxed like income. See how it affects you.

What’s imputed income?

Imputed income describes the value of benefits or services that are considered income when calculating your federal and FICA taxes. Imputed income only affects your gross taxable earnings, not your gross pay.

The IRS provides a list of taxable and nontaxable items [2] that may be considered imputed income.

Where can I find imputed income on my paycheck?

Because imputed income is subject to both federal and FICA taxes, it can be found on your pay stub.

Follow these steps to view yours:

1. Log into the portal [5].
2. Click the **Paychecks** tile.

3. Select the paycheck you would like to view. **Note:** Your paycheck will not populate if
4. Your paycheck will populate in a new tab. You can see a description of the items being taxed in two areas: **Employer Paid Benefits** and **Hours and Earnings**.
   - Under Employer Paid Benefits, you will see Imputed Cash Award, Standard Life and Business Expense
   - Under Hours and Earnings, you will see moving and relocation expenses (MVA), Taxable Tuition Waiver current employee (TTW) and Taxable Tuition Waiver former employee (TTF)

Does imputed income affect my gross income?
No it doesn’t. It will affect your net pay (this is what goes into your account).
