Course	Audience	Description
CU: Cloud Foundations Service Customers Training	Required for Cloud Foundations Service customers utilizing the LCA1 AWS environment.	This 30-minute course covers the resources that must be read and understood before gaining access to your LCA1 AWS account. HCM Course Code: u00278 Start Course [3]
CU: Cloud Foundations Service Team Training	Required for Cloud Foundations Service customers utilizing the LCA1 AWS environment.	This 60-minute course covers the resources that must be read and understood before gaining access to your LCA1 AWS account. HCM Course Code: u00279 Start Course [4]
CU: Controlled Unclassified Information (CUI)	Required for all CU employees who use Controlled Classified Information (CUI) in their work.	This 30-minute course is for all PIs and personnel who use Controlled Classified Information (CUI) in their work. HCM Course Code: u00189 Start Course [5]
CU: Data Center Policy and Procedures	Required for anyone who has access to the data centers on the CU Denver campus or the CU Anschutz Medical Campus.	This 30-minute course covers data center policy and procedures at CU Denver and CU Anschutz Medical Campus. It covers three areas: fire systems, access systems, and data center policy. HCM Course Code: u00206 Start Course [6]

Course	Audience	Description
CU: Information Security Awareness	Required for all CU employees.	This 30-minute course covers how to protect university and private information. To receive credit, all the course modules and video content must be completed and the final quiz must be passed with a score of at least 70 percent. The course was previously titled Information Security and Privacy Awareness. HCM Course Code: u00063 Start Course [7]
CU: Information Security for IT Service Practitioners	Required for all IT staff, including central and departmental personnel at each campus and anyone who manages IT at CU.	This 30-minute course covers the four key concepts of the CU's Information Technology Security Program Policy, APS 6005. CU: Information Security Awareness is the prerequisite for this course. HCM Course Code: u00064 Start Course [8]
CU: IT Business Essentials 1: Communication and Presentation	Recommended to a variety of audiences.	This 4-hour first course in the IT Business Essentials track covers foundational techniques involved in delivering clear, concise, and compelling information. This includes verbal, written, and presentation style. Each module in this course links to learning materials that have been designed to reinforce and expand upon previously presented information. After completing this course, be sure to attend the corresponding facilitated session. HCM Course Code: u60014 Start Course [9]

Course	Audience	Description
CU: IT Business Essentials 2: Technical Writing and Documentation	Recommended to a variety of audiences.	This second 4-hour course in the IT Business Essentials track covers the essentials of technical writing and documentation, along with its significance. It teaches techniques to translate complex information into clear, user-friendly language and covers formats for common technical documentation such as user guides, how-to guides, and standard operating procedures (SOPs). HCM Course Code: u60015 Start Course [9]
CU: IT Business Essentials 3: Business Analysis	Recommended to a variety of audiences.	This third 4-hour course in the IT Business Essentials track covers building a practical Business Analysis mindset, helping you to uncover real needs, engage stakeholders, frame problems clearly, and visualize processes for better decisions using simple, repeatable techniques. HCM Course Code: u60016 Start Course [10]
CU: IT Business Essentials 4: Relationship Management	Recommended to a variety of audiences.	This final 4-hour course in the IT Business Essentials track covers the fundamentals of relationship management and stakeholder engagement. HCM Course Code: u60017 Start Course [11]
CU: IT Confidentiality Agreement	Retired.	This course was retired on 7/11/2023 and replaced by CU: Information Security for IT Service Practitioners (u00064)

Course	Audience	Description
CU: LASP CUI Awareness	This course is required for all LASP employees.	After completing this 40-minute course, you will be able to identify security risks to CU, prevent improper access to or use of CU, mark CUI according to regulation, report incidents that put CUI at risk, and find resources for additional information on CUI. HCM Course Code: u00246 Start Course [12]
CU: Parking Services Credit Card Security	This course is recommended for all Parking Services employees.	After completing this 20-minute course, employees will be able to explain the importance of credit card security and keeping cardholder data safe, follow the policies for securing cardholder data, and report any suspected breach of cardholder data. HCM Course Code: u00277 Start Course [13]
CU: Payment Card Security - CU System	Required for all University of Colorado staff and student employees who process credit card transactions through a CU merchant account to accept secure in-person or online payments.	This 30-minute course will cover responsibilities for protecting cardholder data. HCM Course Code: u00162 Start Course [14]

Course	Audience	Description
CU: IT Security PCI DSS v4	Required for current Campus Merchants and their IT staff; general PCI system users such as accountants, ticket sellers, and cashiers who work with PCI security compliance.	In this 45-minute course, we identify the major changes from version 3.2.1 to version 4 of the Payment Card Industry Data Security Standard (PCI DSS). Four important guidelines are covered: Version 3 changes to the PCI Data Security Standard, building a security-minded culture, scoping the cardholder data environment, and completing a Self-Assessment Questionnaire. HCM Course Code: u00227 Start Course [15]
CU: Self-Service Data for Student Information	Required for faculty or staff who are school/college administrators seeking to access the dashboard to verify student information.	This 30-minute course describes how to use a self-service data dashboard to verify student vaccination status and is required for anyone seeking to access dashboards containing student vaccine information. Upon completion of this course, you should be able to verify student vaccination status using a data dashboard. This course should take about 30 minutes to complete. You should also complete FERPA online training before accessing any dashboard containing student data. HCM Course Code: u00230 Start Course [16]
