POI Information and Policies

A POI may have multiple affiliations with the university without having a job record; however, he/she may also have multiple affiliations as well as a paying job with CU.

POI are defined as a relationship with a sponsor in the Human Capital Management (HCM). Much of the POI relationship is handled at the department level and through the POI sponsors.

POI are often subject to many of the same rules and policies as employees (Office of Discrimination and Harassment (ODH), background checks, smoking, information technology (IT), etc.), but some unique situations or applications of those policies may apply to POI. The
policies themselves will typically cover those details.

**POI should work closely with their sponsors and HCM Community members as they will likely be able to provide the most current information about how to obtain access to buildings, parking, systems, etc.**

**POI and University Policy**

POI are often subject to many of the same rules and policies as employees (Office of Discrimination and Harassment (ODH), background checks, smoking, information technology (IT), etc.), but some unique situations or applications of those policies may apply to POI. See the [University-Wide Administrative Policy Statements Related to Affiliates](#10).

POI, at least those in what we call security-sensitive positions, are subject to background checks either through their own employer or through the university's program. More information can be found at: [the Office of Policy and Efficiency](#11).

POI are subject to university policies on Protected Class Discrimination and Harassment and Sexual Harassment, and must comply with the mandatory training requirements through the Office of Discrimination and Harassment.
